Description:

Drop wires are 4mm galvanised steel wire with a 50kg per wire loading and are used to support lightweight structures or fly banner systems if weight loading permits.

Rigging Points

All Rigging Point Orders must be sent with a completed **scaled cad drawing** (DWG format) showing exact locations of the points. Rigging Points do not include Motors and are subject to weight loadings.

Orders should be sent along with payment to the address below AT LEAST ONE MONTH prior to the Event.

All orders are subject to Stagecraftuk terms and conditions.

Goods/Services will not be supplied unless paid for in advance. If you wish to pay by Credit/Debit Card please tick here and we will contact you for your details. Cheques made payable to Stagecraftuk.

VAT Registration Number: 451706656
